

A **covenant of mutual care** (not less than, but uniquely different from a standard Landlord/Tenant model) with the shared goal to ensure family stability and protect landlord property.

Ingredients:

- A parenting family, homeless or in housing crisis;
- A supportive landlord, seeking a tenant
- A committed congregation, offering resources;
- A professional agency, providing case management;
- A local government, supplementing costs and services.

All of the above linked in a **covenant of mutual care**, bound together to ensure family stability and protect landlord property.

A Covenant of Mutual Care

Ensuring Family Stability and Protecting Landlord Property
