

Homeless To Renter

From Discernment to Action

Bring the idea to the leadership in your congregation

Determine if H2R is a good fit for your congregation

It's important to invite the right people to the conversation from the beginning.

Look at current programs in the community? Make sure it fits with your mission and existing priorities? Do you have the staffing and finances?

Let's collaborate!

Approach housing/service providers to establish a partnership

Open up the conversation to the wider congregation

Make your proposal and vision clear. Be ready to discuss cost/benefit and vouch for your congregation's long-term commitment to the project.

Involve as many members as possible in the discernment process. Explore partnerships and clarify vision.

Make the partnership official

Launch your program

Sign an MOU and hammer out the details: roles and responsibilities, financial planning, and how you'll monitor progress.

And become part of the solution in ending homelessness!
